Phoneme Caps Games Directions

This game takes a little bit of prep time, but the kids LOVE it!

Materials:
- Milk caps (5)
- Velcro

Print off the sheet of cap covers onto cardstock. I have found they last longer if they are laminated.

Cut the circles apart. Place Velcro on the back of each picture.

Place Velcro on the top of milk caps.

To Play the Game:

Attach your set of target sound cap covers to the milk caps.

You will need some type of reinforcer to hide under the cap (e.g. marshmallows, cereal, pennies, bingo chips, etc).

Have the child close his/her eyes, and place a reinforcer under one of the caps.

Now it is the child’s turn to look for the reinforcer. Before picking up a cap, he/she has to say the target word.

Kids also like to hide it from you!
