

Social Story

I like to talk to my friends and teachers.

I have great ideas and great things to share. People like to hear my answers, thoughts, and ideas.

I need to hold my head up high when I am talking to others. I also need to look at the person I am talking to and use a loud, brave voice.

It helps if I open my mouth to let my words out!

I can use my great speech every day, all day long!
