

Keep Safe with a Buddy

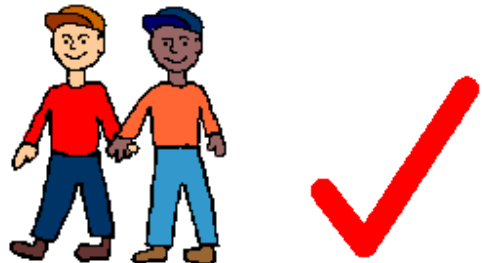

A buddy is a friend.

The buddy system is never going anywhere alone

or by yourself.

It is always  taking a friend or an adult with you wherever you go.

I always need to take a friend along when I go out.

My mom will worry  if I go out alone.

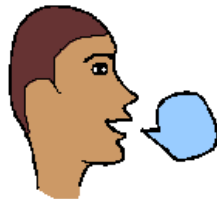

It is important to remember the point of the buddy system

--there is safety in numbers!

= **SAFE**

Always tell someone like mom or dad where you are going and take a buddy with you.

This is the safe thing to do. And it will make mom

and dad happy.

NEVER GO OUT ALONE!
