

Time's Up!

Cut into strips and fold to a 3D triangle to sit on student desk.

1. Still working --This side is showing when the student is working.
2. Time's up --This side shows when you set the timer for 3-5 minutes to clean up. The activity ends and materials are put away. Either:
 - Student cleans up independently
 - Staff and student both clean up side by side.
 - Hand over hand clean up.
 - Staff cleans up.
3. Go to next activity --This side shows when the timer goes off and it's time to move.
