

Christmas Tree Sequence

- * student collects a: tree, lights, ornament, and star
- * therapist gives the student a decorated tree to complete the sequence
- * student places all 5 cards on number chart (or just completed tree and puts the others back in the pile)
- * student with the most completed Christmas trees at the end of the game wins!

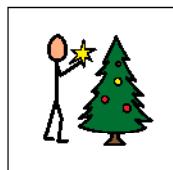

= take a card from any player

= may be used to "steal" a completed Christmas tree

= may be used to pick up 2 cards from the pile

= may be placed on the number board as a completed Christmas tree
